High Lake Channel Dredging Project

Community Pledge Match Commitment Form

Help Make This Project Possible

The proposed High Lake Channel Dredging Project is an important investment in the accessibility of High Lake. Our current estimate puts the price at \$128,000. Thanks to the Indiana Department of Natural Resources (IDNR), we have a Lake and River Enhancement (LARE) grant that will provide \$80,000 towards the total cost. The remainder is to be split between Merry Lea and the High Lake community. Merry Lea pledges their support of \$24,000.

We invite you to consider contributing to the **needed \$24,000 community match** from High Lake residents and supporters. This is a tax deductible donation. Your support today can help make this major improvement possible.
